

# Hitachi Vantara's Pentaho

Pentaho Data Integration and Analytics is an end-to-end data integration and analytics platform powered by Pentaho to manage data at scale for rapid business innovation, ease of use, and self-service automation and orchestration. Pentaho combines data integration with business analytics in a modern platform to easily access, visualize and explore data that impacts business results. Use it as a full suite or as individual components that are accessible on-premise, in the cloud, or on-the-go (mobile). Pentaho Kettle enables IT and developers to access and integrate data from any source and deliver it to your applications all from within an intuitive and easy to use graphical tool. Pentaho is part of a family of products powered by an intelligent data operations platform to deliver excellent customer experiences, create new insights faster and lower costs. It includes:
